HTML/CSS/Responsive Syllabus

This course teaches you the basics of HTML5 including the latest in CSS styling.We discuss basic syntax and move forward to more advanced features such as JavaScript with animations, CSS3 and media queries, and styling with some of the new HTML5 tags. We do not just discuss HTML5, but we also tell you how to perform actual design elements using embedded CSS classes. We also discover the latest form field tags that make gathering information and input from your users much easier.'
